Commissioners' Report

1938-1939

I. *Sidewalks*: The hurricane of the evening of September 23, 1938, blew most of our plank-walk from the crest of Bass Beach into the highway. The salvaged walk was re-assembled in the spring, and five sections of new plank-walk added. Some replacement will be necessary each year. Other work on sidewalks included repairing of cracks in cement walks and cutting grass and weeds along edges.

II. *Water Rates*: Rates for domestic water service supplied by Hampton Water Works Company have during the past year been subject to investigation and a rate case, before the Public Service Commission. Your Commissioners were represented at the hearings, the burden of the case against the Water Works being borne by the Assistant Attorney General. The rates in effect for this summer represent a more equitable basis than a year ago, but are of necessity provisional pending the outcome of the water rate case.

III. *Hydrants*: Two new hydrants have been added, one near the south end of the Fish Houses, and one at the edge of the Business Zoning District; and the former private hydrant in front of the Studebaker house has been taken over by the District. This makes a total of thirteen hydrants maintained by the District.

IV. *Fire Protection*: The District's two hose reels, one in our Fire Station on the Sea Road, and one in Governor Fuller's private garage, continue to supplement the Town of North Hampton's two fire-engines which have been made more available by the Town's action last spring in hiring a permanent fireman.

V. *Trees*: The District helped clear away the dead willows on the Sea Road, and had red maple trees planted in their place this spring, in addition to three trees on Atlantic Avenue and two on Willow Avenue. It is planned to continue this policy of tree planting as long as needed.

VI. *Drainage and Mosquito Control*: A bill was introduced in the Legislature to have a larger trunk installed at the Fish Houses, but was killed in Committee on the assurance that the State Highway Department would put in an adequate trunk as soon as the present one is worn out. The drought this July prevented any flooding of the marsh this summer and helped keep down the number of mosquitoes. The marsh has been sprayed as in the past.

VII. *Zoning*: After the annual District Meeting last September, Philip N. Hobson was reappointed Zoning Inspector for one year, and William P. Fowler was reappointed to the Board of Adjustment, for a term of five years.

VIII. *Policing and Beach Patrol*: Watchman service was again maintained during the winter, and a lifeguard employed for the beach during the summer. A dory was purchased as an emergency life boat. The District has employed a man to pick up papers on the beach and highways, a very necessary service.

IX. *Taxes*. For this past year the District raised \$2400.00, with a tax rate of \$2.60 per thousand dollars' valuation. It is believed that \$2000.00 will be an adequate appropriation for the coming year, as outlined in the following budget:

X. *Budget, 1939-1940*:

Hydrant service and fire protection	\$900.00
Sidewalk maintenance and repairs	250.00
Drainage and mosquito control	350.00
Police service and beach patrol	300.00

Trees	\$100.00
Miscellaneous	100.00
	\$2000.00

Respectfully submitted,

WILLIAM P. FOWLER,
MARION STOTT,
PHILIP N. HOBSON,

Commissioners of Little Boar's Head District.
